

BRAIN SPLITTERS.... FOR SUCKERS ONLY!

Dear friend, this pamphlet isn't meant for you. It's for those poor boobs who still don't grasp that this war in Europe is the cheapest trick played on every American in the history of the United States.

We don't hold that the order of General Bradley's, reprinted verbally on the back page, should be kept secret. It is indeed suited better than anything to show even the dumbest sucker the insanity of Roosevelt's European Polity.

When the German Armies retreated out of France in August and September, that would have been the God given chance for a wise government to bring about peace. No doubt, they would have succeeded, had their policy been led by a fraction of commonsense.

Instead of taking this one and only chance, Mr. Morgenthau and his fellow-kikes preferred to concoct a series of imbecile plans dictated merely by hate.

THESE PLANS LEFT THE GERMANS NO CHANCE TO SURVIVE.

THE GERMAN PEOPLE AND ESPECIALLY THE GERMAN SOLDIER HAVE TAKEN THESE PLANS SERIOUS AND HAVE ACTED ACCORDINGLY.

Since that time, the American Armies have lost no less than 150,000 men and losses are increasing tremendously day by day.

FOR GOD'S SAKE — DON'T EVER USE COMMONSENSE!

This motto seemed to guide Mr. Bradley too when he issued the above mentioned order. "... they cannot be accepted as members of the family of civilized nations."

Now soldier, let's face facts:

FOR OVER 10 YEARS.....

a steady stream of stories has been poured over you about "Nazi-Tyranny", about the "Nazi Dream of World Domination" and all the cruelties they committed to gain their end.

Every French child wounded during an Allied air raid, every man or woman who had lost a hand or leg were photographed and transformed into "victims of German atrocities". Even a simple German delousing station found the honor of being reproduced as a "chamber of torture" of the German Gestapo. — We could feed you with thousands of similar ridiculous atrocity stories.

Well, in case you should be one of those wise birds who did believe in the old saying "Where there's smoke, there's fire" just try to consider the following arguments:

YOU HAVE SEEN FRANCE AND BELGIUM.

For over 4 years these countries were controlled by German authorities.

Has any Frenchman or Belgian ever complained to you about his food, his work or the pay he received during that time?

Did you have the impression that Germany has plundered these countries?

Weren't you surprised to see so many well dressed people?

What about all the stories of Germans driving away all cattle?

Who do you suppose sent them the trainloads of potatoes and grain they're missing to-day?

Did you see any German currency in France or Belgium?

You did not, because everything exported out of France, was paid for in German food stuffs. —

And have you talked to an eye witness of German atrocities?

Naturally, to safeguard law and order and social security as well as our military interests, we had to adopt severe measures now and then. Because we could not suffer to see German soldiers being shot at by illegal elements.

This is the inalienable right of every country at war.

AND THE CAME "LIBERATION"....

AFTER "LIBERATION" -----WHAT?

Instead of food and freedom — the "liberated countries" were presented with hunger and conscription.

Instead of trainloads of potatoes and grain, you've brought them carloads of currency that has no value whatsoever.

Instead of social security you caused prices to soar sky high. The honest workman can hardly afford the minimum of necessities of life.

Small wonder that everywhere armed opposition springs up against the "liberators".

**IN NORTH AFRICA, IN ITALY, IN FRANCE, IN BELGIUM, IN GREECE,
EVERYWHERE THE SAME PICTURE:**

HUNGER, DESTITUTION, OPEN REVOLT - CIVIL WAR!

**DO YOU REALIZE NOW THAT RESPONSIBLE FOR ALL THIS, IS
THE SAME CROWD IN WASHINGTON THAT ALSO SPOILED ALL
CHANCES OF A PEACE WITH GERMANY? THIS SAME CROWD OF
POLITICIANS WHO DELIBERATELY CLOSE THEIR EYES TO ALL
VITAL EUROPEAN PROBLEMS, ALSO WANT TO BLIND YOU!**

They don't want you to get wise to the fact,

that the German people are just as decent as you and your folks,

that they go to church just like any decent people,

that they don't "relish war" —

that they hate it just like any other decent people.

that if you should talk to them about "world domination" they'd simply laugh!

But you might find them determined to fight to the last ditch to save their country.

THEREFORE:

By all means: "NON-FRATERNIZATION"!

RESTRICTED

Headquarters twelfth, Army Group Apo 655, US Army

014.13 (G-1)

4. Dezember 1944.

SUBJECT: Non-Fraternization.

TO: All Organization Commanders, Twelfth Army Group.

1. A subject which is going to hound us from now on, is that of non-fraternization with the German civilians. Right now, of course, it is of less importance than some other things which contribute more directly to winning the war. It may not be as important at the moment, for instance, as getting overshoes for our men or enforcing steps to prevent trench foot, but, nevertheless, we must continue to enforce non-fraternization orders. As we press further into Germany, this subject will increase in importance until, when we are an army of occupation, it will become one of our greatest problems.

2. The education of our soldiers as to the necessity for non-fraternization must be continuous. We must emphasize that we are not just fighting Hitler and his crowd; we are fighting the whole German nation. This is a total war. It is each one of the German people who has made it that kind of a war. If they had not been led by Hitler, they would have been led by someone else with the same ideas. The German people relish war, and are determined to use it until they rule the world and impose their way of life on us.

3. This war is not a sporting proposition. We must not treat the Germans as we would our opponents in a football game after the final whistle. We do not want to play a return game next year or in twenty years.

The German people will tell us they did not want to commit all the atrocities of which they are guilty. They did not want to treat conquered people as shamefully as they have. They will tell us that they were ordered to do so. This is a poor excuse. Certainly, our soldiers would not have committed such atrocities no matter how many orders had been issued for them to do so.

5. These crimes must be shared by the whole German nation. Each German civilian must be made to realize that we cannot forgive such conduct. Until they have proven by many years of proper dealing that they again merit some consideration and trust, they cannot be accepted as members of the family of civilized nations.

Lieutenant General, USA.,
O. A. Bradley,
Commanding

RESTRICTED

A.
